

Professional Responsibility:

Satisfaction of employers and stakeholder involvement,

EPP- Initial and Advanced Programs 2022-2023

PURPOSE

Embedded within the Practicum course, a survey of University Supervisors that observe student teaching included a question focusing on Danielson's domain 4 – Professional Responsibility - aims to ascertain information regarding Reflection on Teaching (CAEP 1.2) Reflection on Student Achievement (CAEP 1.2)

Providing Evidence of Student Achievement(CAEP 1.2), Accepting Constructive Feedback (CAEP 1.1) Exhibiting Professional Behavior (CAEP 1.1) Exhibiting Professional Responsibility (CAEP 1.1) Working Cooperatively with Other Professionals (CAEP 1.1) thereby exhibiting Measure 2 (Initial and Advanced); Satisfaction of employers and stakeholder involvement. The purpose of this instrument is to capture critical information about candidate performance during practicum (student teaching experience).

ADMINISTRATION

The survey was administered in the Fall 2022, and Spring 2023 semesters in the practicum courses

taken by the 1531 Initial and Advanced program students during their last semester, when they are scheduled to complete all their degree requirements for degree conferral. Data collected in the surveys are derived from an analysis of lesson plan, the teaching observation, and a post observation conference. The observations are conducted by the University Supervisor for scoring, in consultation with the P-12 cooperating teacher. The cooperating teachers are employed by the schools where the candidates are completing their clinical experience, and therefore represent the employer perspective.

The Initial and Advanced program candidates represented were Education and Special Education: Early Childhood Education and Special Education, Birth-Grade 2 had 762 responses (49.77%) Childhood Education and Special Education, Grades 1-6 had 423 responses (27.63%) Teaching Students with Disabilities, 7-12 Generalist Program had 140 responses (9.14%) Teaching English to Speakers of Other Languages had 90 responses (5.88%) Mathematics Education had 54 responses (3.53%), Undergraduate Education B-2 had 31 responses (2.02%) Jewish Childhood Education & Special Education 1-6 had 25 responses (1.63%) Undergraduate Education 1-6 had 6 responses (0.39%)

INSTRUMENT

Embedded within the Practicum Observation survey, a question focusing on Danielson's domain 4 – Professional Responsibility exhibits results for Measure 2 (Initial and Advanced) and addresses satisfaction of employers and stakeholder involvement. Seven response options were provided via a Qualtrics survey: Reflection on Teaching (CAEP 1.2) Reflection on Student Achievement (CAEP 1.2) Providing Evidence of Student Achievement (CAEP 1.2), Accepting Constructive Feedback(CAEP 1.1) Exhibiting Professional Behavior (CAEP 1.1) Exhibiting Professional Responsibility (CAEP 1.1) Working Cooperatively with Other Professionals (CAEP

1.1)

VALIDITY AND RELIABILITY

Content validity of all Candidate Learning Outcomes aligned items was established fall 2019 via the Lawshe Method (See Alumni, and Employer Lawshe Exsum).

ANALYSIS

The statistical processes applied were percentages and count of the candidates as they responded to the questions of Professional Responsibility-Danielson's domain 4, reflecting on Satisfaction of employers and stakeholder involvement.

EPP. To improve satisfaction of employers and stakeholder involvement across all programs, the EPP will continue disseminating job opportunities via Canvas courses (for students soon to graduate) and via emailed announcements to completers, to connect candidates with employers. We will also follow up with employers and alumni systematically six months after degree conferral, to better capture career outcomes shortly after graduation.

The EPP Initial and Advanced program practicum student responses were collected during their last semester, when they are scheduled to complete all their degree requirements for degree conferral. The overall results were above 80% to the 7 questions of Professional Responsibility which exhibited results for Measure 2 (Initial and Advanced) and addressed satisfaction of employers and stakeholder involvement. The below tables reflect one thousand five hundred and thirty one (1531) attempts, with their respective responses as follows:
