Welcome to the EDSN 682 Field Experience/Practicum I course!

The following pages constitute a Student Guide prepared to facilitate your work throughout the course. This course has two components: Field Experience and Practicum. The Field Experience component consists primarily of actively observing your cooperating teacher and assisting him/her to perform various activities in the classroom. You will perform the Field Experience component in both a General Education and a Special Education classroom setting. The Practicum component of the course takes place in a General Education classroom, where you will be expected to practice teaching a variety of lessons, one of which your Field Experience/Practicum instructor will observe during a field visit. You can schedule the observation for a time that is convenient for your cooperating teacher, Field Experience/Practicum instructor, and you. In addition to observing you at work, the instructor will have the opportunity to meet and talk with your cooperating/ supervising teacher and, if possible, administrators at the school.

There are also three mandatory live group meetings with your instructor held at the beginning, middle, and end of the semester. The meetings will give you an opportunity to ask questions about course requirements, discuss matters regarding your experiences in the classroom, and meet other students. All students are required to attend these meetings (medically documented illness and other urgent matters that make attendance impossible should be discussed with your assigned faculty member). Your EDSN 682 instructor should be contacting you during the first two weeks of the semester.

When choosing a classroom and cooperating teacher, keep the following in mind:

- Your cooperating teacher must have a master’s degree and at least 3 years of teaching experience
- You cannot spend your Field Experience/Practicum in only one age/grade level. Make sure you work in at least two of the following age/grade levels:
  - Birth - pre-K
  - Kindergarten
  - 1st/2nd grade
- One of your classrooms should serve children from high-need communities.
- An inclusion/ICT class with a strong General Education component is acceptable as a General Education placement.
- An inclusion/ICT class with a strong Special Education component is acceptable as a Special Education placement.

Certified teachers will have a reduced number of required hours to spend in the classroom. Please see the table on the next page for details. Note: Internship Certification is not considered certification.

We hope the following pages of the Student Guide help facilitate your work and make your Field Experience/Practicum course a positive learning experience. If we can be of any assistance, feel free to contact us.

Sincerely,
The Office of Clinical Practice

EDSN682: Field Experience and Practicum I  
Early Childhood General and Special Education, Birth-Grade 2

Course Description:
For the Field Experience component of the course, students complete 50 hours of observations in a General Education classroom at the birth-pre-K, kindergarten, or grade 1-2 level. Students also complete 100 hours of observations in a special education classroom (inclusion classes with strong special education components are acceptable) at a grade level different from the one observed in General Education. For the Practicum component of the course, students complete an additional 20 days-- or 100 hours-- in General Education at one of the three age/grade levels. Certified teachers complete 50 hours of Field Experience in General Education and 50 hours of Practicum in Special Education. Over the course of the Field Experience/Practicum courses students must have experience in at least two of the three grade levels. Actual teaching is a component of the Practicum part of the course. All student teaching is done in accredited schools with the involvement of appropriately certified supervising or cooperating teachers who submit student evaluation forms at the conclusion of the semester.

Cooperating teachers should have a Master’s Degree and a minimum of three years teaching experience. Over the course of the Field Experience and Practicum courses, some work is done in a high-need school or a school serving a high-need community. Students keep time sheets of their hours, record and analyze critical classroom incidents in logs, analyze lessons they have observed, discuss how they assessed student learning for the lesson observed by their Touro instructor, respond to questions related to work with young children, submit a lesson plan for the lesson observed, participate in three class meetings, and complete a final project. An assigned Touro College faculty member meets with students at their Field Experience/Practicum sites and observes and evaluates student work with children in the school or equivalent educational setting. The faculty member and cooperating teacher evaluate both the Field Experience and Practicum components of student work in the course.

3 credits

Note:
- Students may not register for EDSN682 and SEDN683 during the same semester.
- Time spent during preparation periods not used for student teaching purposes, lunch hours not spent with students, and other activities that do not involve work with teachers or students, observations of teachers or students, or planning for student teaching activities may not be counted toward meeting Practicum requirements.

Student Learning Outcomes:
- Students will document, in a professional fashion, observations of various classroom and school-related activities.
- Students will demonstrate sensitivity to the physical, emotional and intellectual needs of individual students within the framework of various classroom activities.
- Students will demonstrate the ability to relate respectfully and empathically to students on a one-to-one basis and in group activities.
- Students will demonstrate a growing knowledge of educational needs of young children, including children with disabilities, and an ability to apply knowledge in their relationships with the children with whom they work.
- For the Practicum segment of the course, student teachers will demonstrate successful presentations of lessons/activities appropriate to the class or group level, showing sensitivity to the strengths and limitations of the students.
• Students will demonstrate growing ability to check for student understanding of a lesson.
• Students will demonstrate a growing ability to check for student understanding of lesson presentations and assess student learning.
• Students will appropriately apply NYS Common Core Learning Standards, NAEYC Standards, and CEC standards in their work.
• Students will demonstrate sound grounding in principles of child development and learning and cognitive education.
• Students will demonstrate awareness of educational technology resources and ability to use technology for instruction.
• Students will demonstrate ability to relate constructively to students in group activities.
• Students will demonstrate satisfactory presentation of at least one formal lessons which is appropriate to the strengths and limitations of the children with whom they work. Students will present lesson plans for the observed lessons and discuss how they plan to assess student learning for the observed lessons.
• Students will demonstrate ability to assess for understanding and use such assessment results for improvement of teaching and learning.
• Students will demonstrate an ability to use supervision in a constructive manner.
• Students will submit final projects that demonstrate the ability to make use of and conduct research as well as good analytical and writing skills.

Course Requirements:
• Attendance at class meetings. The only excused absences are with a doctor’s note or with the approval of the department chair.
• School administration certification form completed and submitted
• Documentation of hours and days, signed by student and cooperating teacher or supervisor
• Activities checklist submitted
• Anecdotal logs submitted
• Logs for observation of lesson presentations submitted
• All signed forms from the Student Guide submitted
• Lesson observation logs of cooperating teacher(s) submitted
• Responses to questions on Some Issues of Particular Importance submitted
• Faculty member’s lesson observation forms submitted
• Lesson plan for lesson observed submitted
• Cooperating teacher evaluation forms submitted
• Essay 1 submitted
• Essay 2 submitted
• Essay 3 submitted
• Course evaluation forms submitted.

University Statement on Needed Accommodations/Adaptations

Any students with a disability seeking accommodations under the Americans with Disability Act of Section 604, The Rehabilitation Act, are required to self-identify with the Office of Disability Services. See the professor/instructor in advance for classroom accommodation, access to technology or other assistance if needed.

University Statement on Academic Integrity

Touro College and University System is a community of scholars and learners committed to maintaining the highest standards of personal integrity in all aspects of our professional and academic lives. Because intellectual integrity is a hallmark of scholarly and scientific inquiry as well as a core value of the Jewish tradition, students and faculty are expected to share a mutual respect for teaching, learning and the development of knowledge. They are expected to adhere to the highest standards of honesty, fairness, professional conduct of academic work and respect for all community members.

Academic dishonesty undermines our shared intellectual culture and our ability to trust one another. Faculty and administration bear a major responsibility for promoting a climate of integrity, both in the clarity with which they state their expectations and in the vigilance with which they monitor students. Students must avoid all acts of dishonesty, including, but not limited to, cheating on examinations, fabricating, tampering, lying and plagiarizing, as well as facilitating or tolerating the dishonesty of others. Academic dishonesty lowers scholastic quality and defrauds those who will eventually depend on the knowledge and integrity of our graduates.

The Touro College and University System views violation of academic integrity with the utmost gravity. Such violations will lead to appropriate sanctions, up to and including expulsion from the college community. We commit ourselves to the shared vision of academic excellence that can only flourish in a climate of integrity.

The International Center for Academic Integrity (ICAI), of which the Touro College and University System is a member, identifies five fundamental values of academic integrity that must be present if the academic life of an institution is to flourish: Honesty, Trust, Fairness, Respect, and Responsibility. To sustain these values, the TCUS Academic Integrity Policy, modeled after that of Rutgers University, requires that a student or researcher:

1. Properly acknowledge and cite all ideas, results, or words originally produced by others;
2. Properly acknowledge all contributors to any piece of work;
3. Obtain all data or results using ethical means;
4. Report researched data without concealing any results inconsistent with student's conclusions;
5. Treat fellow students in an ethical manner, respecting the integrity of others and the right to pursue educational goals without interference. Students may neither facilitate another student's academic dishonesty, nor obstruct another student's academic progress;
6. Uphold ethical principles and the code of the profession for which the student is preparing.

Students must avoid all acts of dishonesty, including, but not limited to the following:

1. Cheating
2. Plagiarizing (presenting work or ideas of others as your own)
3. Fabricating (making up information, data, or research results)
4. Tampering (unauthorized removal or alteration of College documents, software, equipment, or other academic-related materials, including other students’ work)
5. Lying
6. Working with others when assignments or exams require individual work
7. Making unauthorized copies of copyrighted material
8. Facilitating or tolerating the dishonest of others

Adherence to these principles is necessary to ensure that:

1. Proper credit is given for ideas, words, results, and other scholarly accomplishment;
2. No student has an inappropriate advantage over others;
3. The academic and ethical development of students is fostered;
4. The Touro College and University System is able to maintain its reputation for integrity in teaching, research, and scholarship.

Failure to uphold the principles of academic integrity threatens not only the reputation of Touro, but also the value of each and every degree awarded by the institution. All members of the Touro community bear a shared responsibility for ensuring that the highest standards of academic integrity are upheld.

The Touro College and University System administration is responsible for working with faculty and students to promote an institutional culture of academic integrity, for providing effective educational programs that create a commitment to academic integrity, and for establishing fair procedures to deal with allegations of violations of academic integrity.

To Whom It May Concern:

This letter is to introduce our Field Experience/Practicum student. Students in our program complete the requirements for dual certification in General Education and Special Education on the early childhood, elementary school, middle school or secondary school level.

Observing lessons modeled by master teachers and involved participation in the classroom with students, offers opportunities for theory to be applied in practice. Students must complete both Field Experience and Practicum courses. An assigned Touro faculty member visits students for observation lessons in the Practicum experience. We suggest that the cooperating teacher provide different opportunities depending on the developmental level of the student’s program. Some suggestions follow:

During the Field Experience phase of training

1. The opportunity to observe lessons and discuss strategies
2. The opportunity to plan lessons with the cooperating teacher and on his or her own
3. The opportunity to become familiar with the grade curriculum, texts, resources, and school policies
4. The opportunity to interact with students in a range of educational settings

During the Practicum phase of training (all of the above and those below).
1. The opportunity to learn about and use instructional technology.
2. The opportunity to interact with students in a range of educational settings.
3. The opportunity to teach a gradually increasing number of lessons each week during the course of the semester.
4. The opportunity for feedback from the cooperating teacher as well as the Touro instructor on observations of the lessons taught.

In order to focus students on their observation and to document time spent in class, students have a number of forms to complete for their work in the Field Experience/Practicum courses. Please explain to your Field Experience/Practicum student the daily routine you would like him or her to follow, for example absence policies. Structure and guidance will maximize the effectiveness of this experience.

A Touro faculty instructor/advisor will observe the student at work in the classroom during the Practicum component of the course. After first conferring with the appropriate school staff members, the student teacher should arrange a mutually acceptable date and time with his or her instructor for the lesson observation.

Sincerely,
The Office of Clinical Practice
Dear School Administrator,

We are pleased that a Touro College graduate student is completing his or her Field Experience or Practicum in your school. Working with certified and licensed administrators and teachers in a professional environment is a key factor in our teacher education programs. Cooperating teachers are selected in accordance with appropriate state guidelines.

In order to document service in your school, we ask that this form be completed. Thank you in advance for your cooperation. Feel free to contact us if you would like additional information or have any questions about our Field Experience/Practicum courses.

Sincerely,
The Office of Clinical Practice

Field Experience Activity Checklist

During Field Experience, you will have the opportunity to observe an experienced teacher at work in the classroom. You will get the chance to watch formal lessons as well as see social interaction among students. During this component of your EDSN 682 course, you will help out the classroom teacher in many ways. The following suggested activities pertain to children at different developmental levels. Please share this checklist with your cooperating teacher so he/she can check off each activity as it is completed, and include the checklist in your final project. Activities should not be limited to those appearing on the list.

Some possible activities may include some of the following:

1. Instructional Responsibilities:
   _____ Observe all the bulletin boards in and outside the classroom
   _____ Be able to stand in front of the class and give a mini-lesson or administer a test
   (A mini-lesson can be reading a story, giving an assignment)
   _____ Demonstrate the ability to prepare a lesson plan with the cooperating teacher
   _____ Observe student work, projects, papers, etc.
   _____ Take class attendance
   _____ Learn of classroom procedures: bathroom, raising hands, entering and dismissal

2. Student Assessment and Program Evaluation:
   _____ Help grade papers for cooperating teacher
   _____ Assist teacher (as directed) with formal and informal assessments (online and in print)
   _____ Note the use of Evidence-Based Instruction, Data Driven Instruction, etc.
   _____ Assist teacher (as directed) with IEP, SESIS and/or with the review of student goals
   _____ Assist with the setup and use of technology (e.g., LCD projectors, Smartboard Technology)

3. Program Maintenance:
   _____ Be aware of emergency procedures (fire drills, shelter drills, intruder alert, etc.)
   _____ Have knowledge of the layout of the school (auditorium, principal’s office, etc.) bathrooms, security desk, support staff, assistant principals, cafeteria.

4. Classroom Management:
   _____ Observe how teacher handles behavior problems
   _____ Help with emergency situations
   _____ Participate in supervisory duties on the playground, in the cafeteria, bus duty, etc.
   _____ Demonstrate knowledge of reporting procedures to parents
   _____ Observe educational approaches (i.e., Differentiated Instruction, Response to Intervention - RTI)

5. Professional Responsibilities:
   _____ Be knowledgeable of the school calendar and school events (parent-teacher conferences, special programs, etc.)
   _____ Become knowledgeable of NYS Learning Standards and Common Core Standards used in the classroom
   _____ Note the use of lesson plan formats (e.g., Universal Design for Learning - UDL)

6. Additional Teaching Experiences:
   Observe specialists PE Teacher _____ Speech Clinician _____ Art Teacher _____ Reading Teacher _____
   Music Teacher _____ Gifted/Talented Teacher _____ Special Education Teacher _____
   English as a Second Language Teacher _____ Technology Teacher _______

Field Experience Cooperating Teacher Evaluation

Dear Cooperating/Supervising Teacher:
Please use the five point scale below (1 = strongly disagree, 2= disagree, 3= neutral [neither agree nor disagree], 4 = agree, 5 = strongly agree) to evaluate the Field Experience student whom you have supervised. For each item, circle the numeral that best indicates the level of performance for the area in question. Please share and discuss your evaluation with your student. Your evaluation will be used to improve the student’s teaching performance and determine his/her grade in this course. Your cooperation and assistance are greatly appreciated.

Practicum Activity Checklist

During the Practicum component of the course you will get a chance to take a much more active role in the classroom as well as take upon yourself more responsibility in many areas. During Practicum you will be observed twice by your instructor. Be sure to coordinate a convenient time for observation for both your cooperating teacher and your instructor. Prior to your scheduled observation, you are expected to submit your lesson plan to your instructor.

Some of the possible activities you will be participating in are listed below. The following suggested activities pertain to children at different developmental levels. Please share this checklist with your cooperating teacher so he/she check off each activity as it is completed, and include the checklist in your final project. Activities should not be limited to those appearing on the list.

Some possible activities may include some of the following:

1. **Instructional Responsibilities:**
   - Plan and assemble a bulletin board
   - Read a story aloud
   - Teach a small group lesson:
     - spelling, math, reading, social studies, science, language arts
   - Teach a large group lesson:
     - spelling, math, reading, social studies, science, language arts
   - Incorporate manipulatives into a lesson
   - Demonstrate the use of cooperative learning
   - Develop an educational unit in a Special Education and General Education class
   - Organize a field trip
   - Participate in a team teaching experience
   - Share lesson planning, including provisions for differentiated instruction with cooperating teacher(s)
   - Incorporate computer technology in a lesson with Common Core Standards
   - Incorporate library resources in a lesson
   - Demonstrate the ability to prepare lesson plans for a substitute teacher

2. **Student and Program Evaluation:**
   - Use pre-assessment, formative assessment and summative assessment to choose and adapt evidence-based methods of instruction and intervention
   - Construct a test or evaluative tool
   - Administer a test or evaluative tool
   - Interpret test results
   - Use a test or evaluative tool to diagnose and suggest remediation for:
     - an individual student
     - a group of students
   - Use authentic assessment tools, such as observation, anecdotal note taking, portfolio evaluations, and checklists

3. **Use of Technology and Other Instructional Aids:**
   - Demonstrate practical use of available technology:
     - Smartboard
     - Internet
     - video animations
     - LCD and/or overhead projector
     - e-portfolio
     - video
     - laminating machine
     - computer assisted learning
     - electronic record keeping
     - web page design
     - Internet UDL lesson planning
     - PowerPoint or multimedia presentations
4. **Program Maintenance:**
   - Supervise daily logistical activities
   - Demonstrate knowledge of emergency procedures, including location of sterile gloves
   - Demonstrate knowledge of function and responsibilities of support staff

5. **Classroom Management:**
   - Manage individual and group behavior conducive to an effective learning climate
   - Maintain a neat and orderly classroom
   - Facilitate cooperative learning groups
   - Participate in supervisory duties on the playground
   - Participate in supervisory duties in the cafeteria
   - Maintain attendance records
   - Make and keep progress charts
   - Participate in maintaining cumulative records, IEP, SESIS
   - Demonstrate knowledge of reporting procedures to parents

6. **Professional Responsibilities:**
   - Attend after-school events, including parent-teacher conferences
   - Attend faculty and in-service meetings
   - Learn all courses of study (i.e., programs of study mandated by the school system)
   - With the approval of cooperating teacher, write a letter to pupils’ parents (e.g., a letter of introduction an information letter about a unit of study)
   - Become familiar with the system used by the school district to assess the performance of teachers
   - Acquire knowledge of professional organizations and resources

7. **Additional Teaching Experiences:**
   - Prepare instructional plans for a teacher’s aide or parent volunteer
   - Observe specialists in the school:
     - PE Teacher
     - Speech Clinician
     - Art Teacher
     - Reading Teacher
     - Music Teacher
     - Gifted/Talented Teacher
     - Special Education Teacher
     - English as a Second Language Teacher
     - Technology Teacher

8. **Other Experiences (including knowledge of school services and procedures):**
   - Clinical services
   - School counseling services
   - Special testing
   - Special education
   - Homebound instruction

Practicum Cooperating Teacher Evaluation

Dear Cooperating/Supervising Teacher:

Please use the five point scale below (1 = strongly disagree, 2 = disagree, 3 = neutral [neither agree nor disagree], 4 = agree, 5 = strongly agree) to evaluate the Practicum student whom you have supervised. For each item, circle the numeral that best indicates the level of performance for the area in question. Please share and discuss your evaluation with your student. Your evaluation will be used to improve the student’s teaching performance and determine his/her grade in this course. Your cooperation and assistance are greatly appreciated.

Make your inferences about teaching and learning (conclusions reached on the basis of evidence from the lesson and reasoning from your observation) and support with examples. Focus your inferences on the observed lesson activities as related to the chosen Danielson domain and component and HLP’s. Explain what you learned during the lesson and learning strategies/activities as related to instruction and assessment and what you may plan to use in your future practice.

SEGMENT PLAN FRAMEWORK

SEGMENT PLAN OUTLINE

NAME:_____________________________ DATE:__________________

1. SUBJECT:

2. GRADE LEVEL:

3. TYPE OF CLASS:

4. UNIT PLAN TITLE: Describe 4 to 6 connected segments of learning
SEGMENT PLAN TITLE: Describe one segment of learning (A set of 3–5 lessons that build one upon another toward a learning goal, with a clearly defined beginning and end.)

5. **PRE-ASSESSMENT OF STUDENTS KNOWLEDGE AND SKILLS:**

Determine level of academic language and/or communication needs of the general population and your Focus student, as it relates to their background and their ability and level of English Language Learning. Describe the results of prior learning of other segments and their level of comprehension or composing based on formal and informal assessments you used to gather data. Include reference to related skills.

6. **STUDENTS’ PERSONAL INTERESTS/CULTURAL/COMMUNITY ASSETS:**

Summarize data for the entire class, groups and focus students. Indicate the area to be reflected in your segment of lessons.

7. **CENTRAL FOCUS/LEARNING TARGET:**

What is the important understanding and core concept(s) that you want students to develop within the lesson? The central focus/learning target should go beyond a list of facts and skills, align with content standards and learning objectives, and address the subject-specific components in the learning segment.

8. **STANDARDS:**

What State Learning Standards will be addressed during the lesson? (include the standard’s number, text, and link)

9. **INSTRUCTIONAL LEARNING OBJECTIVES:**

What will the students know and be able to do by the end of the lesson? (use observable language related to the standards, with measurable verbs and provide assessment outcome data.)
10. ESSENTIAL LITERACY STRATEGY:

Clearly describe the strategy to be taught and literature used to improve comprehension or composing. The essential literacy strategy, related skills, and language.

11. LANGUAGE FUNCTION: Choose one from bloom’s taxonomy. This active verb tells what students will do with the Essential Literacy Strategy.

12. LANGUAGE DEMANDS: RELATED SKILLS

However, You must teach instructional and contextual vocabulary as an aspect of academic language. What language (syntax and discourse) skills will students be expected to utilize when demonstrating their understanding and skills related to the lesson objectives?

A. VOCABULARY: LIST

1. Content: words and/or phrases

2. Instructional: words and/or phrases

Choose 1 and/or 2: Syntax and/or Discourse

B. SYNTAX: Based on a pre assessment, decide on the need to teach a skill related to teaching the essential literacy strategy and language demand: The use of sentence structure, grammar, punctuation, spelling, transition words related to the language function, etc.

C. DISCOURSE: Written or oral to show language acquisition.
13. KEY LEARNING TASK(S) Provide a brief description of the 3 to 5 sequential lessons which build upon each other.

Lesson 1 Title: Describe what you will model, and students will watch and then participate in helping you complete the model.

Lesson 2 Title: Describe what students will practice while you help them.

Lesson 3 Title: Describe what students will do while you watch them. This last lesson is an assessment of their ability to independently demonstrate their ability to use the Essential Literacy Strategy and related skill(s). It will indicate whether your segment of learning was successful. Note that some classes may need more than one practice lesson. Consider one or two additional practice lessons before the last lesson.

**Prior Academic Learning and Prerequisite Skills**

_Prior Academic Learning and Prerequisite Skills:_

What prior knowledge and skills do students need to build upon in order to be successful in this lesson?

**Misconceptions:**

What are common misconceptions regarding the concepts addressed in this lesson?
A. WHOLE CLASS - Universal Design For Learning strategies

B. GROUPS - Universal Design for Learning strategies

C. FOCUS STUDENTS:

Differentiated accommodations, modifications, and supports for classified, ELL, struggling/gifted students

Lesson Plan One Details

Write a detailed outline of your lesson, including instructional strategies, learning tasks, key questions, key transitions, student supports, assessment strategies, and conclusion. Your outline should be detailed enough that another teacher could understand it well enough to use it. Include what you will do as a teacher and what your students will be doing during each lesson phase. Include a few key time guidelines. Note: The italicized statements and scaffolding questions are meant to guide your thinking and planning. You do not need to answer them explicitly or address each one in your plan. Delete them before typing your lesson outline.

NOTE: Each lesson plan is a short version of the segment plan. For example, each lesson should include only the standard(s) and objectives relative to that particular lesson. Be certain to include a closing activity in each lesson plan.

Also, Language Demands and Assessments may be different in each lesson plan. The Key Learning Task in Lesson 1 may be to model the ELS and to teach vocabulary. In Lesson 2 this may no longer be necessary because the emphasis is on having students practice what you modeled.
